

Dynastar Exclusive Elite

A women's smooth turning ski that is full of performance complimenting both technique and style. Lightweight construction featuring a wood-fibre sandwich core and its full-length phenol sidewalls deliver unparalleled stability and edge grip. It's a high-performance ski without being physically demanding, bringing versatility and perfect carved turns and higher speeds. The wider tip provides easy and precise turn initiation, and the Elite responds quickly to skier's input. An all mountain carver with Race like edge grip, and the ability to handle speed without getting twitchy or nervous feeling make the new Elite an easy choice for talented women skiers, OR for those looking to raise their game.

This one is a favorite with our Women testers. Here are a few comments.

"Another GREAT ladies ski and the graphics are HOT." "The Elite guides you into each turn without hesitation or wandering." "The ski feels perfect underfoot with just the right blend of muscle and manners. Carving is easy and almost second nature to the new Elite. Did I mention how much FUN they are?"

Dynastar Exclusive Legend

A strong performer in the All Mountain group, the Legend is a favorite ski with our testers, who praise its stability and the solid platform it delivers. Women skiing bigger areas need more versatility than a pure carving ski can offer.

Here are some relevant comments, from OUR testers

"Stable. . very stable at higher cruising speeds, while still very capable of quick edge sets and aggressive carving when the snow is less than perfect."

"The Legend will encourage ladies to use more of the Mountain. It builds confidence and does not require flawless technique to venture onto steeper expert runs or into the glades. Very solid platform and forgiving."

"User friendly and fun, and very easy to handle for a ski of this performance level." While aimed at advanced skiers, the Legend is still friendly enough for Women who want to improve on a ski they can "grow into" while enjoying every run. AND the graphics are stunning.

"Women who ski east and West Look no further, your ski is here."

Dynastar Exclusive Eden

The first thing you feel is a sensation of powerful skis that go wherever you want, whenever you want. They seem to go where you are looking, almost as if they are connected to your thoughts.

They are so stable and perform with a true "Big Mountain" attitude, so good women skiers can just turn 'em loose and enjoy the ride. More Ladies would venture onto the most challenging runs Double Blacks and chutes if they got on a pair of Edens" Not for timid skiers or women who ski only the easier groomers. But for the skier looking for fun with a dash of adrenaline, here is your solution, and you'll smile thinking of all the fun you're having, and how much better you're skiing on a ski that was designed for women, by women that test the skis throughout the design and development process.

All our testers agree on this one. The Eden is the ultimate choice for Women looking for an elegant ski that will encourage true "steep and deep" time. Like all Dynastars, carving is second nature to this ski.
