

Rossignol Attraxion III

Love the ski and the look. They look like a performance ski and they perform well in different snow conditions, including crud and broken snow. Carving is natural and effortless on this ski, giving the skier more ski time with less fatigue. Lots of taper angle really lets the skier “mix it up” when it comes to varied turn shapes. This is one ski that does it all well and looks good doing it. This is another true All Mountain ski that will take skiers up a notch or two with very little work on the skier’s part. The ski works and **WORKS VERY WELL**”
Fun for women who already know how to ski, but not so much ski that every little mistake will be punished by brutalizing the skier. A FUN ski with a great look and feel. Easy to choose turn shapes even at higher speeds. Ski’em all day with less effort and enjoy the sensations without all the work. FUN skis!

Rossignol Attraxion Echo

For the green-minded women skier. The Echo uses minimal environmentally un-friendly materials, fewer petroleum-based products and lacquers. The ski features a wood core and natural fibers. But... this environmentally-friendly ski is no slouch on the slope. Women skiers can charge the whole mountain in any terrain on these boards. They are designed for expert women skiers seeking the ideal one-ski-quiver for carving and skiing off-piste. Built with Rossignol's women's F.I.T. technology to enhance lightness and maneuverability.
Ladies who ski everywhere (about 70% Frontside / 30% Backside) and do it with high energy will love the new Echo. The 75mm waist combined with a 12.8m side-cut (in a 162cm length) provide both stability and remarkably easy turns.

Rossignol Attraxion VI

This is one of those skis that defies being assigned to a category. The new “6” is very easy to control, user friendly (forgives some errors that other skis would punish by dumping you on your butt) and yet, the ski will carry most Women through a diverse assortment of trails and terrain.
E Z! They go exactly where you want, when you want, and they do it with precision and grace. With a higher speed limit than the “3” the new “6” is a perfect choice for those who want to ski ALL DAY, with less work. Just click into the Attraxion and you’ll get it right away. Sweeeeet!
“These immediately felt light and easy to control. This ski will fast track some Ladies to the next level. They feel like they just “love to ski” and changing direction is almost as if the skis know where you want to go.
A FUN ski for Women looking to ski a wide variety of runs without fear of reprisal from her skis. They deliver plenty of benefits and a solid smooth ride. Women looking for high speed stability should look to Attraxion Echo.
